PORT OF AMORY

A general purpose river terminal with more than one mile of frontage on the Tennessee-Tombigbee Waterway

Port of Amory

The Port of Amory is located in the Amory Waterway Industrial Park at River Mile 369.5.

The port maintains a 22-acre facility with 7 domes that total 65,000 metric tons of storage; 12 acres of unpaved open storage; a 30-ton capacity bridge crane with a 60-foot span; and dockside and dome storage served by rail.

The public terminal serves nearby industries with inbound barge shipments of raw materials and outbound rail and truck shipments of production-ready materials. A nearby wood pellet plant exports finished product to European markets by loading at the Amory port and connecting to international water freight at Mobile.

The Port of Amory is one-half mile from US-278 and eight miles from four-lane US-45.

The port has direct access to Class 1 BN via port rail spur.

- Barge loading/unloading
